The EBK Mini Messenger bag's design was inspired by the messenger bags carried by cyclists in cities all over the world. It offers a fresh alternative to the commonplace backpack. The EBK Mini Messenger is perfectly proportioned for kids as young as three.

Oversized Velcro™ closures make opening and closing a breeze for preschoolers. The adjustable drop strap allows the bag to grow with the child. And unlike backpacks, the messenger style doesn't require any adult assistance—kids can feel confident and independent.
